

Date: 9-23-14 Time: _____

We will soon be conducting vegetation maintenance along power lines in your area. After a review of power lines on your property, we found the following:

- Trees near power lines on your property will require routine trimming.
- Certain trees on your property present a reliability risk and have been flagged for removal. Please contact us for more information.
- Power lines are clear of limbs and don't require additional maintenance at this time.
- Vegetation is interfering with access to a pad-mounted transformer and/or pole on your property and requires maintenance.
- Limbs are in cable TV and/or telephone lines and are not affecting power lines. No trimming is required.
- Since the required pruning is the result of storm damage, the brush is being left for your disposal.

If you have questions or concerns, please contact:

Barney Hathcock 850-519-2871

Duke Energy is committed to providing our customers with safe, reliable electric service.

Maintaining trees and vegetation along our power lines helps to ensure reliability, minimize outages and enhance safety for customers, Duke Energy employees and contractors.

Duke Energy hires qualified, trained tree experts to inspect and clear electric lines on its system. Our crews use industry-approved pruning techniques endorsed by the National Arbor Day Foundation and the International Society of Arboriculture.

All debris from our regular maintenance pruning activities will be cleaned up and disposed of by Duke Energy. Disposal of vegetation resulting from storms and other emergency operations is the responsibility of the property owner.
