**Activity Location:** 115 7th st

**Activity:** To: The Chief, The Officer and the City Of Apalachicola. In the early mornings of Last week on 6/21/08, my brothers house caught on fire at 115 7th street. I was emotional distraught but yet overwhelmed by the City of Apalachicola Police officer. The officer was the first to arrive on the scene at my brothers home, while it was full engulfed with fire. That officer first came to me and ask was there anyone in the home, I said i dont know. But the courageous thing that the officer did, was that there was another house that was next door to my brothers and it had caught on fire also, and people was still inside of that house. I saw officer Crooms go to every window beating on the house to get that family out of there, and then go underneath the porch, that was ablaze and boiling with flames to open the door and go get the family with both houses over filled with smoke. It wasnt taken lightly that this particular officer arrived on the scene, it was by far a blessing and honor to have him on the scene of that fire. But the part that touch me the most was that the neighbor had just got off work and went to sleep. And we all know that the smoke alone can take you away, but It was just the perfect timing that the officer came and awake Mr. Johnson. I want to thank the Mayor and the Chief Of Police for that officer heroic effort in saving that life. As a resident of Apalachicola, Im very grateful to have this Police Dept. Thank you Greatly Officer Crooms. You're Greatly appreciated. please forward this email to the Chief of Police and the officer
